[+1-\(503\)-367-1627](tel:+15033671627)

## *Technical*

JavaScript

jQuery

Node.js

Git / GitHub

SQL / NoSQL

Backbone.js

CSS3

## *Experience*

### **PopSockets** *Lead Developer* **May 2015 - August 2015**

Developed Shopify storefront for PopSockets. Built templates & responsive client-side tools, & integrated designs from other PopSockets web presence. Emphasized modern web standards like Flexbox.

**Technical Environment** Shopify eCommerce Platform, Liquid Templating Language, Bootstrap framework, JavaScript / jQuery

### **NorthWest Veg** *Assistant Developer* **May 2015 - August 2015**

Took over various small projects for lead developer Eric Day. Implemented complete restrcture of legacy HTML - from table-based markup to semantic solution.

**Technical Environment** Custom templating language, CSS3 / HTML5, Git

## *Education*

**Certificate of Success** *2015*

*Full-stack JavaScript*. Portland Code School.

## **MA, Philosophy 2012-2014**

Emphasis in metaphysics, philosophy of language, & ethics. University of Colorado, Boulder.

*Vagueness & Fundamentality* - 2014

## **BA, Philosophy 2009-2011**

Paul J. & Rebecca Olscamp Scholarship 2009-2011. Outstanding Graduate, 2011. Vice

President of Philosophy Club, 2010-2011. Western Washington University.

# ***Projects***

## **The Reason Because...**

[thereasonbecause.com](http://thereasonbecause.com)

A RESTful Express.js app using Handlebars, Bootstrap CSS, and the very cool Theater.js plug-in.

Makes a grammatical case against English sentences of the form “the reason is because...”.

## **Personal API**

[joefraley.com](http://joefraley.com)

An Express.js app running tons of RESTful API's and WebSockets. It acts as a personal

dashboard, so that people can easily find me around town, and have something to talk about.
